

## Meeting Agenda

Date: 2015-05-22

Facilitator: Emil

Participants: Emil, Rebecka, Hampus. (Erik couldn't make it )

### **1. Objectives (5 min). Resolve any issues preventing the team to continue.**

The level class is not mvc, makes STAN complain.

### **2. Reports (15 min) from previous meeting**

Erik and Emil have done some work with the graphics, such as small character and background and tiles to levels. They have also done mvc refactorning.

Hampus started with testes, done some mvc refactoring. Mousecontrol in menus.

Rebecka mvc for key and door. Fixed the menu levelselect.

### **3. Discussion items (35 min)**

STAN showed some issues that we have to fix. The View package contains to many controller classes.

Continue with the mvc refactoring.

More tests should be done.

The SDD have to be finished. Fix all the appendix.

### **4. Outcomes and assignments (5 min)**

Rebecka and Hampus will continue with tests. More advanced tests must be done.

Rebecka will also do an expansion on the LevelSelect menu.

Emil will try fix mvc on level and more graphics.

Everybody must write Javadoc.

### **5. Wrap up**

Next meeting next monday 25/5.
